SUMMARY

A professional with a solid foundation in Production support and java programming. Possessing a comprehensive skill set ranging from technical expertise in SQL and Linux to proficiency in Front-end Stack.

PROFESSIONAL EXPERIENCE

Mahindra Comviva Technologies – Gurugram, Haryana
Software Engineer

-08/2023 to Present

- Leveraging expertise from the *Linux and Shell Scripting* to update and maintain scripts on production servers, achieving a 70% improvement in system efficiency.
- Provide robust back-end support for application through *Oracle database* analysis.
- Utilized comprehensive knowledge to oversee end-to-end IT operations, ensuring seamless functionality and system integrity.
- Ensured optimum performance and responsiveness of the application by identifying bottlenecks by 30%.
- Practicing foundational *Azure functionalities* like virtual machines, pods, and monitoring tools to support cloud-based processes introduced to the project.

EDUCATION

Degree	Institute	Board / University	CGPA	Year
B. Tech IT	Shri Shankaracharya Technical Campus, Bhilai	CSVТУ	8.93	2023
Senior Secondary	Brilliant Public School, Bilaspur	CBSE	7	2019
Matriculation	Brilliant Public School, Bilaspur	CBSE	8.2	2017

PROJECT

Report it –

- A website that addresses the public safety concerns by establishing a direct communication channel between users and local law enforcement. The platform facilitates the prompt reporting of potential dangers or discomforts, with a specific focus on women's safety and emergency situations requiring immediate attention from hospitals.
- Utilized HTML, CSS, JavaScript for frontend development and Node.js with Express for backend, integrating Cloud storage to optimize image handling and MySQL database for efficient data storage and retrieval.
- This innovative approach empowers users to convey detailed situational information to the local police department, facilitating proactive intervention and preventive measures.

TECHNICAL SKILLS

Programming Skills : Java | OOPS | Linux/Unix - Shell Scripting | Data Structures and Algorithm

Web Development Skills : HTML 5, CSS3, JavaScript, React.js

Database & Tools : Oracle DB, SQL, Azure Cloud, Eclipse IDE, Microsoft Office

CERTIFICATES

- Azure Fundamentals: Currently applying foundational Azure knowledge to support project requirements.
- Linux and Shell Scripting Expertise: Enhanced system automation and script maintenance.
- MySQL Database Management: Providing critical insights for back-end application support.
- IT Operations Full Stack Competency: Supporting end-to-end IT processes with a focus on efficiency and reliability.
